How It Works

Our Customers Say

“IGS was great to work with. Professional and does great work. Having the extra heat and improved air quality has been good for business.”

- Ron Robbins | Milford, DE

About IGS

Intelligent Green Solutions is a leader in renewable energy and energy efficiency solutions in the residential and commercial spaces. We have been in business since 1999 and have worked with over 1,200 customers. Our main offices and handling facilities are located in Bainbridge, NY. IGS has also expanded with additional offices and facilities located in Milford DE, Bakersfield CA, and San Diego CA to better serve customers in the mid-atlantic region and on the west coast.
